CHEMICAL SUPPORT SYSTEMS DOSING TANKS – 300L

Product Codes:

DT300-N - 300 Litre Chemical Dosing Tank – Natural

DT300-B - 300 Litre Chemical Dosing Tank – Black

APPLICATIONS:

- Water Treatment
- Purification of Water
- Storage of Mixing Chemicals
- Performing Flocculation, pH Adjustments & disinfection of liquids

KEY FEATURES:

- **Construction Materials:**
 - **MDPE** (Medium Density Polyethylene)

- **Design:**

- Rotationally Moulded UV Stabilised
- 1 Piece Moulded Tank with no seams or welds
- Graduated scale for viewing of tank level (Natural Only, for black tanks a 'cat & mouse' or 'valved level gauge' are recommended)
- Stepped lid to allow fitting of pumps or level measuring equipment with ease
- Screw on Lid

TECHNICAL SPECIFICATIONS:

Material	MDPE (Medium Density Polyethylene)
Tank Diameter	650mm
Tank Height (Overall)	1100mm
Lid Size	225mm
SG (Specific Gravity) Rating	1.5 SG

Please note: Tank sizes quoted are subject to a +/- 3% variation

ADDITIONAL INFORMATION:

- **For suitable bunds for these tanks, refer to the below part numbers:**
 - **DT300-BUND-N** - 330 Litre Dosing Tank Bund to suit 300 Litre Tank – Natural
 - **DT300-BUND-B** - 330 Litre Dosing Tank Bund to suit 300 Litre Tank - Black
